TO BRITISH AND EXOTIC BOTANISTS.

FREDERICK Y. BROCAS has for 12 years devoted his time principally to botanical pursuits, and accumulated about 90,000 British and Exotic specimens. He has also had ample experience in the conservation of an Exotic Herbarium, and has this autumn added to his collections an extensive series of Seeds of Critical Species.

F. Y. B. now intends to devote his time exclusively to the above science as a business, and is prepared to receive orders for supplying collections or desiderata, or to undertake any engagement connected with it.

*** A few nearly complete sets of British Flowering Plants, Ferns, and Mosses, are now ready; and also small collections for Gardeners, Schools, or private instruction, at a reduced price. Collections named, arranged, mounted, and an allowance made for duplicates.—Inquiries addressed to Frederick Y. Brocas, Botanist, 85, St. Martin's Lane, London, W.C., will receive immediate attention.

Now ready, handsomely printed upon super-royal paper (largest 8vo), £2; or, with the Plates beautifully coloured, £3. 3*s.*,

A CENTURY OF FERNS;

This is not a reduced price re-issue, but it is intended to meet the wishes of such Fern lovers as would find it more convenient to obtain the work in half-crown Monthly Parts than to expend three guineas at one time.

*** *A Specimen of the Work will be sent to any address for four postage-stamps.*
